Friday - Wear Hearts or Red!

FEBRUARY

Study FOCUS

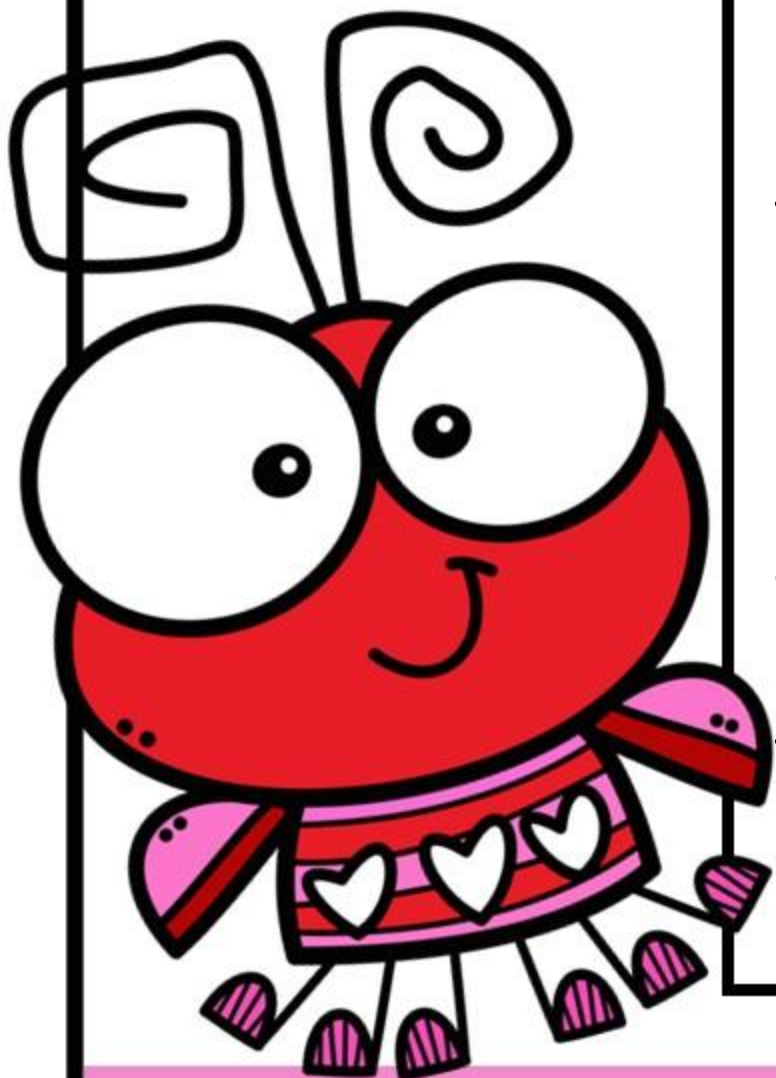

We started our ball focus in January and will be continuing it through most of February. How can you help us with this study? You can talk to your children about the properties of balls, compare different balls to each other, and of course play games! Get out and toss the ball around, assuming it is warm enough. See which ball rolls farthest in the living room. Which ball bounces the highest on the porch. This instills a scientific curiosity that is natural in children.

We move on to our sign study focus during the last week of February. You can help out by pointing to all the different signs you see in the neighborhood. Most children will easily recognize a stop sign, but maybe talk to them about what a yield sign means. The opportunities are endless.

Potty TRAINING

Consistency plays an important role in the success of potty training.

Our teaching team is working hard on teaching these skills to our littlest friends. You can do your part in check-in with the teachers if you haven't yet started this journey at home.

Cold & Flu POLICY

01/27/2026

Please keep your child home if they are having any cold or flu symptoms, due to the 'outbreak' of the flu in both children and staff of ECE.

If your child is having any symptoms, you will be called to pick them up.

We appreciate your understanding and wish everyone good health.

Upcoming CLOSURES

Teacher Inservice
February 2nd

Tribal Closure
February 16
